PROFESSIONAL SUMMARY

Resourceful software engineer skilled in latest technologies to ensure maximum credibility, expertise in coordinating diverse teams, detail-oriented with proactive and smart-working approach with resources to produce result fidelity.

KNOWLEDGE OF JOB

- Having four years eight months of skillful experience in Software Development in .Net Technologies and SQL Server.
- A decent and deep understanding in developing applications using scripting in Angular 4 & 6 and React JS.
- Having a good hands-on experience in ASP.Net Core, ASP.Net MVC and Restful Web API with Angular, React JS and JavaScript. Having a decent experience in publishing website, hosting, and deploying it on the server side.
- Having expertise in leading team as release owner (patch owner) end to end, planning for release scope, distributing work-items to colleagues/ subordinates, actively working on the development on PBIs/ Minor Features/ Bug fixes, testing various modules in SDLC/agile/Waterfall as appropriate, handling customer feedbacks/ escalations, extension of releases, automation, Veracode (security changes evaluation), performance, getting the work-items to closure/ follow-ups, taking decisions on the resolutions, releasing with all artifacts, prioritizing the tech challenges and draw schema for the up-coming schedules.

HIGHLIGHTS

- Continuous contribution on open-source community: https://github.com/iamrajthomas
- Having domain knowledge of .Net Technologies and SQL Server.
- Skilled in Scripting like Angular 2, 4, 6 & 8, ReactJS 17.0, JavaScript.

TECHNICAL SKILLS

Programming Language:	C# 8.0
Scripting:	TypeScript 4, Angular 2, 4, 6 & 8, JavaScript, React JS 16.4
Web Technologies:	HTML 5, CSS 3, Bootstrap
Frameworks:	ASP.Net MVC, ASP.Net Core 1.0 & 2.0, Restful Web API
Database:	SQL Server 2016
Version Control:	Git 2.31.1.windows.1, Tortoise Git 2.11, TFS 14.102

Harman Connected Services, Pune
PROJECT: ICERTIS CONTRACT INTELLIGENCE (ICI)

ICI contract management platform is an enterprise level product-based web application, which covers the full lifecycle of contract management capabilities beginning with intelligent contract setup and then continuing with authoring, approvals, negotiations, and all other aspects of ongoing contract operations. The true value of ICI begins after a contract is signed, providing full visibility and powerful tools to ensure what you and your partners have committed to happens, even as conditions change.

Tech-stack: ASP.Net MVC (using C# 6.0), SQL Server 2017
Responsibilities:
Working as patch owner, as part of HyperCare-Team, involved in end to end project deliverables like planning for release scope, distributing work-items to colleagues/ subordinates, actively working on the PBIs/ project deliverables es, handling customer feedbacks/ escalations, extension of releases, automation, Veracode (security changes evaluation), performance, getting the work-items to closure/ follow-ups, taking decisions on the resolutions, prioritizing the tech challenges, releasing product with all artifacts and draw schema for the up-coming schedules.

CaseFlow Technologies Pvt. Ltd, Pune
PROJECT: AMERICAN DAIRY GOAT ASSOCIATION (ADGA)

ADGA is a product-based web application, deals with keeping track of the animals (goats), owners of animals (goats) & its associated data. This helps ADGA manage the animals (goats) purchase & sell information in real-time by integrating the payment module, keep track of animal of what breed type, its family members and analytical reporting.

The workflow covers pre-production procedure from concept to tie-in, multiple schedules to create actions in real-time, process requests after being queued and governance.

Tech-stack: ASP.Net Core 2.2 (using C# 6.0), Swagger, React JS 16.4, Material UI,
SQL Server 2017 & Docker
Responsibilities:
Involved in client call, requirement analysis, design, pure implementations and front & back-end coding, maintenance, and meet-up sprint objectives & project deliverables.

InfoVision Labs, Pune
PROJECT: SIGMAFLOW

SigmaFlow is a product-based application, deals with Compliance Management and Well Delivery Solution. This helps oil and gas companies manage the well delivery workflows in real-time by integrating the multiple schedules from the drilling schedule, to process execution and analytical reporting. The workflows cover pre-production processes from concept to tie-in, multiple schedules flags, key milestone dates forecasted, process governance and compliance.

Tech-stack: ASP.Net and ASP.Net MVC (using C#), Angular 6, Telerik Kendo, SQL Server 2014

Responsibilities:
Involved in requirement analysis, design, pure implementations and front & back-end coding, maintenance, and meet-up project objectives.

FusionStak Technologies Pvt. Ltd, Pune
PROJECT: CLIENT TRACKING SYSTEM

The objective of the application is to keep track of professional and personal information of clients and users. Further, if they want, they can get different set of events like, programs and services for their professional and organizational needs by paying at low cost or free. For any program and services, reports are being generated and being availed to the client after successful completion of each event.

Tech-stack: ASP.Net Core 1.0 (using C#), Angular 2, SQL Server 2016
Responsibilities:
Involved in requirement analysis, database design, pure implementations and coding, maintenance, and client interactions on monthly basis.

PROJECT: PLEXOSOFT

The core objective of the application is to keep track of the sensitive information of people surrounded with natural disasters like tropical cyclone. These people will be inspected with the legal documents, and they will get the common but very useful resources for being settled down.

Tech-stack: ASP.Net Core 2.0 (using C#), Angular JS, SQL Server 2016
Responsibilities:
Involved in requirement analysis, core implementations, strong coding, maintenances and client interactions.

PROJECT: WISECONNECT

This is a health care application for connecting patients to the doctors, book appointments and check for the test results and growth on their health after taking doses. The medical devices, given to the patient will keep track of the patients' data and that data will be pushed as records into the database. Anytime patient can sign into Patient Portal and check for the availability, test results and growth in charts and have pre-cautions if needed. It applies for doctors and managers with different set of scenarios.

Tech-stack: ASP.Net Core 1.0 (using C#), Angular 4, JQuery, SQL Server 2016
Responsibilities:
Involved in requirement analysis, database design, core implementations in coding, maintenances, and client interactions on weekly basis.

ACADEMIC QUALIFICATIONS

GANDHI INSTITUTE OF ENGINEERING AND TECHNOLOGY   Gunupur, Odisha
Bachelor of Technology, B.P.U.T.   2012-2016

- Completed Computer Science Engineering stream having **C.G.P.A. 7.65**.

RAYAGADA JUNIOR COLLEGE   Rayagada, Odisha
+2 Science, C.H.S.E.   2010-2012

- Completed intermediate with **62%** of marks.

SARASWATI VIDYA MANDIR   Bhawanipatna, Odisha
Matriculation, H.S.C.E.   2000-2010

- Completed matriculation with **68%** of marks.

TRAINING AND PROJECTS DONE

GANDHI INSTITUTE OF ENGINEERING & TECHNOLOGY   Gunupur, Odisha

Project: Analysis of structured, semi-structured and unstructured data
Using Hadoop: A Bigdata Framework   *[Minor & Major Project]*

- Configured Hadoop in our systems. The data samples taken, like Sensex Data from New York and some other samples of data from different social networking sources like Facebook and Twitter; were further processed and manipulated using Hadoop.

NARESH IT   Hyderabad, Telangana

Core JAVA Programming   30 Days
.NET (C#, ASP.Net, SQL Server)   150 Days

EXTRA CURRICULAR ACTIVITES

- Performed Urban Street Dance and won 1st prize in International Festival and Science & Tech Expo 2015 and 2016 held at Gandhi Institute of Engineering and Technology, Gunupur.
- Participated and won 1st prize in badminton doubles in International Festival and Science & Tech Expo 2015 and 2016 held at GIET, Gunupur.

HOBBIES AND INTERESTS

- Conceptual Photography
- Urban Dance
- Chess Puzzles

PERSONAL STRENGTH

- Active Learner / Explorer
- Team Player
- Query Optimizer

PERSONAL DOSSEIR

Date of Birth	:	18th June 1995
Gender	:	Male
Father's Name	:	Thomas Mathew
Nationality	:	Indian
Languages Known	:	English, Hindi and Odia
Address	:	Rayagada, Odisha, India

DECLARATION

I hereby declare that the above information furnished by me is true and correct to the best of my knowledge and belief.
